Our new practice website is online!

We are delighted to welcome you to our new website after a long period of preparation.

Here you will not only find important information, contact details and impressions from our practice, but also an extensive information centre with information on important medical conditions (currently only in German) and informative links and downloads in the field of child and adolescent health. This section will be continously updated.

In addition, we will keep you up to date on the latest recommendations or current issues from the practice (e.g. opening hours on public holidays) in the news section.

Itâ??s worth visiting our website regularly!

A very warm **thank you** goes to the many people who were involved in the realisation of our new website:

- our great employees, who provided many good suggestions for the website
- the wonderful children and parents who were willing to be photographed with us in the practice
- the photographer Nadine Grimm from Jena, who took our pictures with joy and ease
- the web designer AndrÃ© WeihermÃ¼ller from Jena, who professionally implemented our new website with his technical know-how and great commitment and patience

We look forward to your feedback on our new website! Please feel free to give us your personal feedback or write us an e-mail.
